About Me

I am a Front End Developer who enjoys working in a team that supports continuous learning and strives for high-quality work. I am constantly working to improve my skills.

building dynamic web projects and Developing UI design

I'm focusing on implementing clean code and easy to read at a glance.

So I'm always seeking to have an opportunity that matches my skills, to make the best use of all what I have learned.

Education

2017
Dec 2021

Al-Azhar University

Bachelor of Business Administration
Very Good

Projects

E-commerce website

e-commerce website with Dashboard based on Modern design with React Next.js aiming at high code quality & SEO

I used Sass, Material Ui for Tables and carefully created custom components

we have secure payment and wonderful dashboard for Admin that show you how your store is performing in the previous month , the Latest Transactions and more

- Demo

 https://moz-ecommerce-30w4ikh7q-mohammedramadan99.vercel.app

- Code

 https://github.com/Mohammedramadan99/mozEcommerce

Social Media website

Social media website with Modern interactive design with React Next.js aiming at high code quality & SEO.

you have the ability to post and interact with others, add comments, follow and more

I used Next.js, Sass for styling, Mongodb, Node.js, express.js, mongoose
